PROFILE

Resourceful Software Engineer with experience in Frontend and Backend Development, Mobile Development, Cloud Engineering, and Machine Learning. I have a verifiable history of designing and deploying cloud-based solutions and back-end features that optimize business performance. I have successfully demonstrated first-rate competence in building and integrating REST and GraphQL APIs, using cloud platforms, version control software, third-party services and working on AI/ML models

---

EXPERIENCE

Oct 2023 - Present   **Software Engineer I - Left Lane Technologies**

June 2022 - Sep 2023   **Software Engineer (Part-time) - Left Lane Technologies**
- Developed REST and QraphQL APIs for both web and mobile applications
- Deployed full-stack application infrastructure to AWS Cloud
- Integrated Stripe payment service to multiple applications across different use cases and application needs
- Lead a team of engineers
- Worked with a team using Agile Methodology
- Integrated various third-party APIs and services
- Projects: Plugtent, Parseat

Nov 2023 - Present   **Backend Developer, CreditCliq**
- Optimized and added new features to the REST API used by the mobile app
- Worked with Paystack API to process payments and save cards
- Adding new features to an internal administrator system
- Made use of AWS Cognito for authentication
- Project: Credit Cliq

SKILLS

API Development and Integration   Mobile Development   Frontend Development   Cloud Engineering

Application / Unit Testing   Data Science and Analysis   Machine Learning and Artificial Intelligence

WordPress Development   Leadership Skills   Presentation Skills   Python/C++ Programming

NOTEABLE PERSONAL PROJECTS

June 2022 - Aug 2022   **MySvote - [Online Voting Platform]**

- Built a secure and scalable voting platform
- Gained over 2,000+ users
- Built with Node.js, React, and TailwindCSS
- Mysvote

Jan 2023 - May 2023   **Gild - [Cross-border Money Transfer]**

- Built an international money transfer Platform
- Built with Node.js, GraphQL, and NextJS
- Integrated Stripe Payment API
- Facilitated transfer of over $1,000
- Gild

EDUCATION & CERTIFICATION

BACHELORS OF SCIENCE, COMPUTER SCIENCE
MOUNTAIN TOP UNIVERSITY | 2019 - 2023

- Graduated with First Class Honors - 4.89/5.00 CGPA
- Ranked 3rd overall in academic achievement among the graduating class.
- Best Graduating Student Department of Computer Science and Mathematics
- Vice President of the Computer Science Association

SQL FOR DATA SCIENCE
AVITA | 2021

TOOLS I USE

Node.js	Typescript	JavaScript	GraphQL	Python	Django
AWS	SQL	MongoDB	React	Next JS	React Native
Visual Studio	Docker	Rabbit MQ	Linux		

EXTRA-CURRICULA ACTIVITIES

2022 - Present   **Long Distance Runner**

Dedicated long-distance runner athlete, demonstrating discipline, perseverance, and goal-oriented mindset. Engaging in regular training and participation on various long distance race competitions

2022 - Present   **Chess**

Avid chess player with a strategic and analytical mindset. The game's complexities align with my problem-solving approach in software engineering.
